GRID GARDEN

Level 28 of 28

You win! By the power of CSS grid, you were able to grow enough carrots for Froggy to bake his world famous 20-carrot cake. What were you expecting a different hoppy friend?

If you enjoyed Grid Garden, be sure to check out [Flexbox Froggy](#) to learn about another powerful new feature of CSS layout. You can also find new coding games over at [CodePie](#).

Want to support Grid Garden? Spread the word to your friends and family about Grid Garden!
